

Society for Music Perception and Cognition

Society for Music
Perception and Cognition

April 2021

This is a special update, being sent to all members. even those who have opted out of the digest.

Due to the interruption of the SMPC conference cycle, the board has decided to grant one year of no-cost dues to all society members. If your membership was set to expire after March of 2020, it has now been extended for one additional calendar year.

For example, if your dues covered membership until May 2021, the now extend to May 2022. If you'd just renewed your membership until April of 2023, it will now extend in April of 2024.

We hope to see you all at an in-person conference in the future!

Best,

Michael Schutz (on behalf of the SMPC board)
